

Letter of Intent 2020

Questions from Information Sessions

Q: Can you offer a description of Capital Project Funding?

A: The Cape and Islands United Way allows organizations to apply for funding of capital projects if the project is central to the core mission of the organization. For example, an organization can apply for funding to improve a building which will be lived in by residents participating in a program. However, an organization cannot apply to renovate their administrative offices.

Q: How can you print out the application?

Step 1: Log into grants portal and click “Continue with Application”

Step 2: Click at the top right “Choose Action”

Step 3: Click “Preview Application”. A new page will open with the complete application and a “Print” button in the top right-hand corner.

Q: What will the renewal contract look like?

A: The contract renewal will take place during Quarter 4 of Year 1. It will largely be an administrative process at the United Way but will be assessing 1) the progress toward the identified outcomes and 2) available United Way funds.

Q: How will grant money be provided to grantees?

A: The Cape and Islands United Way will be distributing checks on a quarterly basis to organizations from July 1st, 2020 – June 30th, 2022.

Q: What would a joint application process look like?

A: If two or more organizations wanted to collaborate in a grant application, one organization would need to be the lead for the grant application and for the grant funds should it be awarded. That organization would describe the joint effort throughout the grant and any other organizations involved. Only one grant application is submitted. There is a question in the larger grant application for all organizations to describe collaboration.

Q: Can you apply for different amounts of money for year 1 and year 2?

A: Yes. An organization can apply for \$5,000- \$25,000 per year. The Cape and Islands United Way does its best to fully fund all requests; however partial funding for either or both years is possible.

Q: How much total funding is there to be distributed?

A: The Cape and Islands United Way aims to distribute roughly \$500,000 per year in Community Impact funds.

Q: Can you submit more than one LOI?

A: No, only one LOI per organization can be submitted.
